

7 MAJOR STEPS WHEN ORDERING YOUR STEEL BUILDING

1

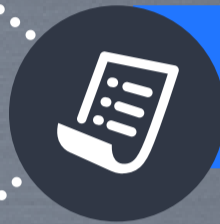

WHAT SIZE

Determine how you intend to use your new building and what size you need.

2

REQUEST QUOTE

Send the width and length to Capital Steel to request a detailed quote.

3

DEPOSIT

With just a small deposit, we will dedicate a Project Coordinator to your project who will guide you from design through completion of construction.

4

FINALIZE DESIGN

Working with your Project Manager, finalize the location of your doors, windows and the selection of other components.

5

SIGN & APPROVE

Review the final design of the building and sign off to release the building for fabrication.

6

FABRICATION

Your building will be manufactured at a plant near you including pre punched openings.

7

DELIVERY

Sign off on the shipping paperwork and arrange the delivery of your building
